

DYNASCAN EU-55

professional radio

The Dynascan EU-55 is a PMR-446 Walkie Talkie created for professional users, which offers clear audio, always facilitating communications between users. With this Dynascan walkie, the user can select between 8 automatic search channels and 16 channels - 219 CTCSS codes, which helps ensure a much clearer signal.

The Dynascan EU-55 is black and grey and has a size that fits perfectly in a hand.

Thanks to its handstrap and its IP65 protection, it will be your best companion for outdoor activities.
