

# ROLLGLIDER

*The ultimate flying experience.*

HAVE YOU EVER  
DREAMED OF  
**FLYING?**

# Outdoor Projects

The Rollglider, be it as a Panoramic observational ride or an Extreme thrilling one is perfect for outdoors. From ski resorts to Adventure zones and Theme parks, the ride quickly becomes a favorite attraction of thrill-seekers and adventure-hunters alike. The Rollglider is highly adaptable to the landscape and could be selfstanding, suspended on trees or even integrated with an existing ski lift.

Electric Rollglider & Extreme Rollglider

Theme Park

Doha, Qatar

# Bao Son Paradise

## Extreme Rollglider

Amusement park

Hanoi, Vietnam

# Indoor Projects

Indoors, the Rollglider is the ultimate adventure. Both its Electric and Gravity versions allow riders to feel the thrill of flying and immerse in the experience. The Electric Rollglider features manual speed control as well which allows riders to control their own adventure. The ride is space-efficient and can run in a closed loop, meaning only one operator is needed to run it. Both types of the Rollglider ride can be easily integrated with other products like challenge courses.
